DURA II A/C FLUSH EXPO PROMOTION

**BUY 3 AND
GET ONE FREE!**
**ORDER AS A MASTER PACK
P/N TEM 409889P**

Dura II is UNMATCHED in its ability to thoroughly clean the air conditioning system leaving no residual oils or chemicals behind.

Those with NAPA Know How understand that a successful A/C Repair starts with a clean system, and there are only two ways to get there: 1) component replacement, or 2) Flushing. Complete component replacement can be costly, which makes flushing the natural choice for most technicians. So when it comes to flush, Know your Parts! Not all flushes are created equal!
